- ✓ O-Rings are compatible with all refrigerant oils and flushing agents
- ✓ Fits Over Copper Line Sets

TECHNICIAN INVENTED. TECHNICIAN PROVEN.

The Nitrogen Purge Boot was invented by HVAC technician **Chris Hughes** after a challenging job scenario forced him and his crew to come up with makeshift solutions to push nitrogen through a large copper line set.

He walked away from the job with the idea for a hands-free tool that could easily pop on and pop off of line sets of various sizes with a flared end for hoses.
